My rental instruments are fine student quality instruments. Each instrument is set up with a tailpiece with four adjusters, good quality strings, a fiberglass bow with horsehair and a durable case.

The string music teachers I deal with have been extremely pleased with how these instruments play and sound.

**Starting off with a good quality instrument that is well set-up can be key to whether a student continues with lessons.**

**I personally service and repair all of my rental instruments.** I have been repairing and restoring violin family string instruments for over 15 years, and I work only with violin family stringed instruments.

When you choose to rent from Beekman Violin, you can be assured of the highest quality service.
